

2017-2018 Income and Expense Breakdown Dependent Student

Federal Student Aid Programs

Your 2017–2018 Free Application for Federal Student Aid (FAFSA) was selected for review in a process called verification. The law says that before awarding Federal Student Aid, we must ask you to confirm the information you reported on your FAFSA. An unusually low amount of household income was reported on your FAFSA. Federal regulations require that dependent applicants with low incomes submit a written statement signed by a parent and the student documenting how the household was maintained on this amount of income. Please complete this form and return it to the Trinity Student Financial Services office.

Student's Printed Name

Student Soc. Sec. #

Student TIU ID #

Please fill out the income and expense worksheet below and submit this form to the Student Financial Services office as soon as possible. **Do not leave any blanks; if the answer is zero, please put \$0.** If expenses are greater than income, please use the space below to explain how expenses were met.
